

Kestrel Opportunities Fund
Participant Summary
Report to participants for the reporting period

Beginning of the reporting period **01/04/2017**
End of the reporting period **31/03/2018**

This report was made available on 27 September 2018.

The fund remains a reporting fund (using the definition provided in the Offshore Funds (Tax) Regulations 2009) at the date this report was made available to investors.

If excess reportable income has arisen, it is deemed to have been distributed on the date six months following the end of the reporting period, being 30 September 2018, or, if relevant, on such earlier date as the excess reported income is recognised in the investor's accounts.

In order to compute the quantum of excess reported income relating to your shareholding, this can be calculated by reference to the number of shares held by you as at 31 March 2018.

Actual distributions and excess reported income are deemed to be the equivalent of the receipt of a foreign dividend and should be treated as such in your UK income tax return.

Excess reported income is reported in the functional currency of the fund.

Should you have any queries with regards to the content of this report, please contact your tax advisor.
